

Our Green Solutions

Eco-friendly solutions for your needs

ENERGY EFFICIENCY

- **ETL lab tested 2% or less air leakage**
Improves the energy efficiency of the entire HVAC system (air handler & premier product offering)
- **SEER/EER Enhancement**
Provides higher energy efficiency at a lower cost
- **High efficiency multi-speed motors**
Reduces wasteful energy consumption

INDOOR AIR QUALITY

- **Hydrotec™ drain pan**
Reduces water retention during off cycle
- **Microban® antimicrobial additive**
Inhibits the growth of mold and mildew on the drain pan
- **Variable-speed motor option**
Constant air circulation setting enhances indoor air filtration
- **Foil-faced insulation**
Easier cleaning and reduced bacteria build-up
- **UV light compatible**
Designed for easy U.V. light installation

ENVIRONMENT

- **Environmentally safe refrigerant option**
Products are configured to accept "ozone friendly" R-410A refrigerant
- **Recyclable materials**
Up to 87% of our evaporator coil material can be recycled
- **Quality assurance**
Strict production and QA standards on our products, including dual leak testing, to help prevent refrigerant losses into the atmosphere
