The Premier Upgrade for Any System

Introducing MX Series Modular Blowers by ADP. These compact modular units match perfectly with your system and allow for a flexible “one-man-job”.

- Multiple electrical connection locations for easy installations
- Slide out blower assemblies
- Optional filter rack accessory
- Approved for single family and manufactured home applications
- Flexible configurations: Upflow, Downflow and Horizontal

Note: MX Series air handlers with hot water heat can be installed in similar configurations - see installation instructions for further details.
Option 1: Electric Heat
MX Series can be used as a stand-alone electric furnace or combined with an ADP coil.

Electric heat unit features:
• Available for field installation
• Slide-out panel with one-point electrical connections
• Add an ADP coil to make modular air handler unit

Option 2: Hot Water Heat
Easy to read plug and play multi-function control boards provide fast access to key features.

Control Board Features:
1. Controls both factory and field installed circulating pumps
2. 24 VAC isolation valve control
3. Auxiliary contacts for water heater or boiler activation
4. Freeze protection activates at 40°F
5. Thermostat connections
6. 60 second time delay for blower activation
7. 130°F aquastat time delay for blower activation (optional)

The ADP Advantage

FLEXIBILITY
ADP tailors custom solutions to meet your unique market needs.

QUALITY
ADP proprietary testing technology ensures leak-free performance at the higher operating pressures of R-410A systems.

SERVICE
ADP coils and air handlers are made for seamless installation and easy access.

ENERGY SAVINGS
Many models are available to achieve higher SEER levels for ENERGY STAR compliance, utility rebates, and federal tax credits.

WARRANTY
Product Nomenclature

MX C 08 00 N 2 E

Series
MX series

Blower Motor
C: 3-speed PSC motor

Size/Airflow
08: 800 CFM
12: 1,200 CFM
16: 1,600 CFM
20: 2,000 CFM

Hot Water Coil
00: No hot water coil
WP: Hot water coil with pump
WN: Hot water coil without pump
AP: Hot water coil with 130°F aquastat & pump
AN: Hot water coil with 130°F aquastat & without pump

Heat Size
B: 3 row hot water coil[1] (available on 08 & 20 models)
C: 4 row hot water coil[1] (available on 08, 12 & 16 models)
E: No heat [2] (electric heat kits sold separately)

Voltage
2: 208/240 V, 60 Hz, 1 ph, with time delay[2]
4: 120 V, 60 Hz, 1 ph, with time delay[1]

Line Voltage Connection
N: Stripped wires

[1] Hot water heat only available in 120 V, 60 Hz.
[2] Electric heat kits can only be used with 208/240 V only and are field installed.
For these kits please see accessories price list.

Note: Approved in the state of Massachusetts.
