Comfort & Reliability

## ADP Indoor Cooling Products

**Protection** ADP manufactures the only indoor cooling equipment featuring Microban® antimicrobial product protection. Microban protection is a unique feature that inhibits the growth of mold and mildew on the drain pan within your evaporator coil. Why does it matter? Just like air filters provide protection against dust, pollen and allergens in your home, Microban technology provides added protection against the build-up of mold and mildew within your system. ADP is a system upgrade to help you breathe easy.

**Quality** ADP strives for perfect products and a trouble-free customer experience. Our advanced designs and testing technology ensure reliable and long-lasting performance. The ADP leadership position within the industry is supported by numerous customer awards for Performance, Excellence & Quality. For added assurance, our coils feature the availability of a 10-year limited warranty at no additional cost.

**Savings** ADP indoor cooling products have been designed to upgrade your furnace and outdoor condensing unit to enhance the overall system performance. Your coil can improve the energy efficiency of your home, providing valuable savings on your monthly energy bills.
