No Heat	✓	✓	✓	✓

✓ Available factory installed * Available field installed kit ° Side return available in 12-36 MBTUH only °° Side return on HW models only

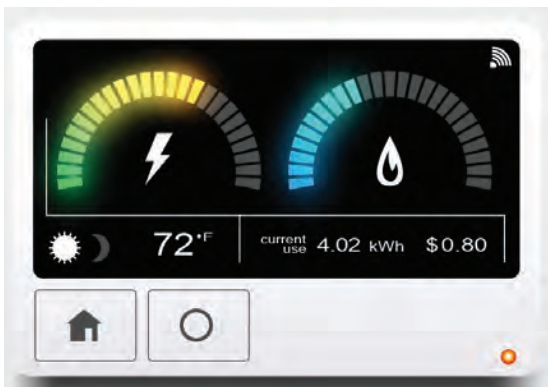

GAS FURNACE REPLACEMENT

- eFURNACE™ makes it easy
- Replace with same footprint & return configurations
- Shorter than typical furnace allowing for installation into existing space with minimal changes to ducting
- Uses existing 120 V electrical service - avoids expense of running a new 240 V circuit
- No heat for mild climate areas
- Just four SKUs leverages your ADP coil inventory - turns any coil into a 2-piece air handler

NEW CONSTRUCTION

- Full line of air handlers
- Available 120 V/240 V models
- Available no heat/electric heat/hydrionic heat models
- PSC/5 speed ECM/VS ECM options

DUAL FUEL

- HP with coil plus gas furnace
- Best of both worlds
- Low cost of HP operation in mild winter weather
- High heat capacity with gas furnace for colder days
- Potentially eligible for rebates
