Low Profile, Multi-position Air Handlers

The Premier Upgrade for Any System

ADP low profile air handlers offer a compact, efficient solution that is perfect for single or multi-family use. They are thoroughly tested to ensure quality and deliver reliable ratings. The design has been generated to save customers a substantial amount of time on installation. ADP air handlers are the ideal choice for a variety of residential applications.

Easy Access Control Panel
- Easy-to-access control panel and one-point electrical connections; optional 5-20 kW heat kit available

ASHRAE 193-2010 Tested
- Sturdy cabinet design with less than 2% air leakage when tested in accordance with ASHRAE 193-2010

Slide-out Blower Access
- Slide-out blower assembly with multiple electrical connection locations

Multiple Configurations
- Upflow, downflow, horizontal left and right configurations
Improved Air Quality
Microbes can double every 20 minutes on an untreated surface!

Standard plastic pan with visible mold

Plastic pan with Microban® antimicrobial additive

Mold is part of our environment and there are no practical ways to completely eliminate mold spores.

The best defense against mold in a home is to prevent it from taking hold through moisture control and the use of mold resistant building materials.

Compact Design
F Series air handlers are lightweight and up to 12" shorter than the comparable OEM models.

THE ADP ADVANTAGE

FLEXIBILITY
ADP tailors custom solutions to meet your market needs.

QUALITY
ADP proprietary testing technology ensures leak-free performance at the higher operating pressures of R-410A systems.

SERVICE
ADP air handlers are made for seamless installation and easy access.

ENERGY SAVINGS
Many models are available to achieve higher SEER levels for ENERGY STAR compliance, utility rebates, and federal tax credits.

WARRANTY
ADP air handlers come with a no hassle 5-year warranty and feature an available 10-year limited warranty. Simply register online at www.ADPwarranty.com.
