Premier Indoor Evaporator Coils
The Premier Upgrade for Any System

Introducing Healthy Solutions® Premier Evaporator Coils by ADP. These coils match perfectly with your system, providing an upgrade over standard matched coils.

Front panel with only four screws for fast and easy coil access

Non-captive refrigerant lines

Built-in plenum flanges with rounded corners for fast and safe installation

TXV with all threaded connections; no brazing required

Intertek lab tested 1% or less cabinet air leakage for better efficiency

Painted cabinet options for furnace color coordination

Aluminum or copper coils provide flexibility for local markets

HydroTEC™ with patented drain pan design for lower water retention

Dual drain connections on each side for ease of installation

Green & red drain pan plugs to identify primary vs. secondary
Improved Air Quality
Microbes can double every 20 minutes on an untreated surface!

Mold is part of our environment and there are no practical ways to completely eliminate mold spores. The best defense against mold in a home is to prevent it from taking hold through moisture control and the use of mold resistant building materials.

Every Healthy Solutions® coil features Microban® technology, providing added protection against the build-up of mold and mildew within your system!

Lower Height
ADP provides space saving opportunities and a perfect fit with your furnace!
