The Premier Upgrade for Any System

ADP modular blowers offer flexible options, including electric heat or hot water heat models. Our air handlers are 100% run tested to ensure reliable performance and are designed to save time on installation. ADP modular blowers are the ideal choice for a variety of applications.

Electric Heat Unit

Modular Blowers can be used as a stand-alone electric furnace or combined with an ADP coil.

**Electric Heat Unit Features:**
- High efficiency 5-speed ECM motor
- 5kW - 20kW field installed Electric Heat Kits
- Slide-out panel with one-point electrical connections
- Add an ADP coil to make complete air handler unit

Hot Water Heat Unit

Easy to read plug and play multi-function control boards provide fast access to key features.

**Control Board Features:**
- Controls both factory and field installed circulating pumps
- 24 VAC isolation valve control
- Auxiliary contacts for water heater or boiler activation
- Freeze protection activates at 40°F
- Thermostat connections
- 60 second time delay for blower activation
- 130°F aquastat time delay for blower activation (optional)
- Pump timer to meet local or national codes for water circulation

THE ADP ADVANTAGE

**FLEXIBILITY**
ADP tailors custom solutions to meet your market needs.

**QUALITY**
ADP air handlers are 100% run tested to ensure reliable performance.

**SERVICE**
ADP air handlers are made for seamless installation and easy access.

**ENERGY SAVINGS**
Many models are available to achieve higher SEER levels for ENERGY STAR compliance, utility rebates, and federal tax credits.

**WARRANTY**
ADP air handlers come with a no hassle 5-year warranty and feature an available 10-year limited warranty. Simply register online at www.ADPwarranty.com.
