

LOW PROFILE F SERIES

THE FUTURE IS ELECTRIC

POWERED BY ADP

VARIABLE SPEED B SERIES

WHY ADP?

QUICK INSTALLATION

Our easy to install coils allow you to shorten installation time, resulting in time savings and increased revenue.

- Lower heights for system flexibility
- Perfect match and fit with OEM equipment
- No pre-assembly required

EASY ACCESS

ADP products are designed and built with the dealer in mind.

- Non-captive front panels provide fast and easy coil access without the need to cut refrigerant lines
- Filter rack door with thumb screws for easy access and replacement
- Built-in plenum flanges with rounded corners allow for fast and safe installation

ABOUT ADP**

QUALITY

- We're proud of our products. It's all we do
- #1 U.S. producer of residential evaporator coils
- Innovation labs and extensive testing

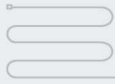

FLEXIBILITY

- Products designed to match perfectly with any system
- Flexible business partnerships
- Product variations that allow for quick installation and easy access

SOLUTIONS

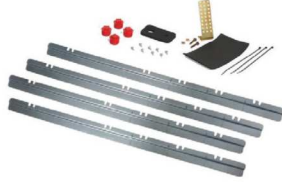

- We solve problems!
- Choice of products – 10,000 SKUs
- Advanced technical capabilities

Ease of Installation

FIELD-READY

No additional installation parts needed

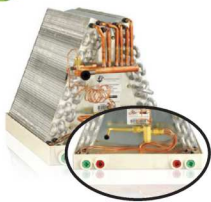

ROUNDED 3/4" DUCT FLANGE

Safe and easy installation

DRAIN PLUGS FACTORY INSTALLED

Green/red drain plugs for easy identification during installation

TWO-PIECE OPTION FOR INSTALLATION BENEFITS

The eFurnace, F Series, and B Series air handlers offer simplified installation. With ADP evaporator coils fitting directly on top of the eFurnace and already installed in the F and B Series.

Simplest Solutions to Electrification:

INTRODUCING THE NEW 120 V 5-SPEED ECM LOW PROFILE, MULTI-POSITION AIR HANDLER (F-SERIES)

- Compact, lightweight design, up to 12" shorter than the comparable OEM models, 48" max height
- HydroTEC™ drain pan design
- Filter rack
- Left and right condensate connections
- Upflow, downflow (kit), horizontal left/right configurations
- 5-speed ECM
- Multi-stage outdoor compatible
- No auxiliary heat option with 120 V models

MULTI-POSITION & HYDRONIC AIR HANDLER (B-SERIES)

- Upflow or left/right horizontal
- Side-return capable
- Variable speed 120 V
- Filter rack
- Insulated cabinet
- Dehumidification control
- No auxiliary heat option with 120 V models

GAS FURNACE REPLACEMENT (EFURNACE) *COMING SOON

- Same footprint and return configurations as existing furnace
- Use with ADP coils for a two-piece air handler option
- Uses existing 120 V service, no need to run 240 V
- 120 V, 5-speed ECM motor (meets rebates)
- Less than 33" tall, shorter than any gas furnace
- No auxiliary heat options only for mild climates
- Up/down/horizontal airflow
- Side-return capable (both sides)
